Title of the Thesis: A Study of the Perception of Faculty and Students towards Academic Incivility in Teacher Education

University School of Study: University School of Education

S. No.	Examiner's Suggestions	Correction /Revision	Page Numbers
1.	Operational Definitions of Key Terms	The operational definition of each key term has been revised in order to make them more precise.	18, 152
2.	Coverage of Theories	Critical insights from holistic understanding of theories focusing on the phenomena of incivility have been added to establish the relationship between the selected theories and their role in the development of research tools.	66, 67, 79
3	Extent of Review	A critical analysis of each theme in Chapter 2 has been added to compare the studies and find the research gaps. Furthermore, it has been ensured that there is no duplication of the review of studies in chapter 1 and 6.	28, 39, 40, 45, 46, 51, 52
4	Sample Size & Selection, Sampling Method	The sampling technique for B.Ed. colleges has been added in the sample of the study section in Chapter 4	77
5	Lack of Stratification, No Comparison Group	The aim of the study was not to compare any groups and establish any causal and relationships, which has been highlighted in the research design of the study.	76
6	Pilot Study	The sampling technique for the pilot study and the findings of the pilot study have been added in Chapter 4. The sample of the pilot study and the main study was completely different.	81, 82
7	Repetitive Interpretation	The measure findings of the results pertaining to each objective have been critically interpreted.	89, 90, 105, 118, 119, 134, 135, 139, 143, 144

8	Educational Implications	The educational implications pertaining to each objective have been revised.	90, 91, 105, 106, 119, 135, 136, 139, 140, 144
9	Discussion Quality, NEP 2020 Linkage	The discussion of findings has been revised.	163, 164, 165
10	Lack of Standardized Benchmark	There was no culture fair standardized tool available during the period of development of research tools.	78
11	No construct or Criterion Validity	It is one of the limitations of the study due to Covid-19.	83, 155
12	Missing Data Collection Context	The researcher collected the data in offline mode which has been mentioned in research methodology of the study.	76
13	No Ethical Documentation	Ethical considerations followed by the researcher have been mentioned in Chapter 4. The copy of informed consent email has been attached as Appendix VIII.	84, 203, 204
14	Missing Timeline	The year of data collection has been mentioned in the development and description of tools section in Chapter 4	79
15	No Response Rate	The number of faculty and students approached for data collection has been mentioned in the sample of the study section of Chapter 4	77
16	Alignment Issue in Objective 6	The researcher could collect only the data related to incivility by students in online interactions as the consent of faculty was not received by the researcher. Hence, it is one of the limitations of the study.	155
17	Implications Sections	The educational implications for different stakeholders have been revised.	160, 161, 162, 163
18	Overall Language Quality	The language used in the thesis has been improved in order to meet the research standards and enhance the internal consistency of the study.	-
