### **Association with the company “eLitmus” for conducting the Employability Assessment Test**

As part of CCGPC endeavors to support the placement of students and apprise them with better opportunities, the cell has associated with the company eLitmus for providing better employability platform for the all students and to conduct the assessment test of the students to measure the preparedness under “Student Paid Model” and in turn endow the required training/ sessions for improving the same.

After conducting the assessment by eLitmus, a pH test score is given to all the assessed students, which is used by many corporates as a first level of filter for conducting the further selection process for fitment of the students for required profile.

#### **About eLitmus:**

eLitmus is a first-of-its-kind service in the world. Since it was launched in 2005, eLitmus has been redefining how fresher and entry-level recruitment is done in India. Our proprietary pH Test evaluates job seekers. On the basis of a variety of parameters and grades them nationwide using an advanced statistical model, resulting in a pH Score for each candidate. We provide an extensive range of online tools. These tools help recruiters to easily screen and select candidates based on this and dozens of other parameters.

### **About pH Test :**

eLitmus pH Test has one of the strongest correlation to long term on job performance (first 5 to 6 years every one does well given the boom) . Best evidence is in Barclays where all hires through eLitmus became VPs in 7 years versus minimum of 12 years when tests / hackathons provided by some global vendors were used. Whenever companies want a true filter on analytical and reasoning capability, they use the eLitmus pH Test – one of the most researched analytical and algorithmic tests in India (and maybe the world). It essentially helps companies identify talent with the right “natural abilities” – resulting in both candidates and the company being happy.

- It has helped companies reduce wrong hires by 90+% including from those among IITs/ NITs
- More about pH test is available [here](#).
- It uses a unique methodology for assessing and short listing candidates.

### **Pattern:**

Section	Questions	Marks	Time
Quantitative Aptitude	20	200	2 Hrs
Verbal Ability	20	200	
Analytical Reasoning	20	200	

1. pH Test uses a unique handicap based negative marking  
2. pH Test is branch agnostic and does not contain any branch  
3. Your pH score is valid for 2 years and you can apply to all opportunities basis this.  
4. pH Test score is used by 600+ companies across various industries
