**To All Stakeholders of the University**

In wake of the Govt. of NCT of Delhi's announcement this evening that in view of Delhi's poor air quality all Government offices will operate from home (WFH) for a week, may it please be known that all such University activities which require physical presence stand deferred by a week. Fresh intimations will be put out by respective University Schools of Studies and other University Departments – be it the admission interviews, admission processes, and all other events requiring physical interaction.

Consequently, all affected stakeholders, may stand suitably informed. Functions which can move to digital mode, will be shifted in like manner at the earliest.

With a prayer that Delhi's air quality index improves sooner than later, and a wish that all of you stay safe in this troubled air,

Sincerely,

(Prof Yatish Agarwal)

Vice Chancellor's Office
