F.No. GGSIPU/USLLS/2021

Webinar on Legal Entrepreneurship in New India

An entrepreneurship cell is an important branch in any educational institution today. The Legal Entrepreneurship & Incubation Cell wish to perform as a think tank to devise new ways to amalgamate legal education with entrepreneurial training. It shall ensure smooth introduction of entrepreneurial education into the law school curriculum and make appropriate strategy for the same. The cell wish to fill the gap between planning and implementation of the entrepreneurial training of law students. Legal entrepreneurship is an inherently multi-disciplinary exercise that moves beyond the classical lawyers perceived boundaries. Legal entrepreneurs are thus best viewed as the process of achieving a distinctive, sustainable position in the economic market by the deliberate and innovative exploitation of one or more legal flexibilities. The Skills Needed of Entrepreneurial Lawyer- Legal entrepreneurs, like classical entrepreneurs, are defined by uncertainty and innovativeness.
