(Dr. Nisha Singh)
Training and Placement Officer
CCGPC, GGS IP University

Accenture hiring for Associate Software Engineer

Eligibility Criteria:

- All streams/branches of B.E/B.Tech/M.E/M.Tech, MCA, and M.Sc. (CSE, IT only) from 2023 & 2024 year of pass outs with full-time education only (Part-time and distance educations are not considered)
- MBA /PGDBM candidates are not eligible to apply for this role
- No active backlogs during application and/or during onboarding.
- Candidate should not have more than 11 months of experience
- You should have completed your relevant degree (eligible for this job role), in the stipulated
- duration of the degree. Hence, there should be no gaps during the course of your degree.
- Eg: You must complete your B.Tech in 4 years or M.Tech/MSc in 2 years.
- Your highest educational qualification only will be considered
- Candidates must be eligible to work in India either by citizenship/ have relevant work permit
- documents.
- Please note that Bhutan and Nepal nationals can work in India without a need for obtaining a work visa. All other foreign nationals require work visa or an Overseas Citizenship of India (OCI) or Person of Indian Origin (PIO) card to work in India
- You are willing to work in any Business Unit/Service line within the company
- You are willing to join /relocate across India

Roles & Responsibilities:

- As an Associate Software Engineer you would largely be involved in:
- Design, build, test, assemble, support and configure application using business requirements
- Understand business drivers that will impact performance and deliver software to those
- expectations
- Bake technology trends into solutions; Participate in the development of automation solutions,
- new functionality and technologies and integrate them in existing solutions
- Responsible for incident resolution and support extended to customers through voice
- interaction/email/chat/remote support

Skills Required:

- Ability to anticipate and resolve business issues with agility
- Multi-disciplinary and versatile with the aptitude to learn and apply new skills faster
- Good analytical and problem-solving skills and proficient in verbal and communication skills
- Deliver code, to time and quality expectations and participate in peer reviews
- Take ownership of the successful implementation of the solution
- Support infrastructure operations and /or manage delivery for IT production system and services
- Flexibility to relocate for project deployment to any part of India and work in 24X7 shifts basis
- business requirement

Preferred Skills

- Basic understanding of ABAP Development on HANA, CDS, AMDP, Performance Analysis
- Experience or knowledge in configuration, customization of Salesforce.com applications
- Good working knowledge in J2EE and full-stack development
- Knowledge and development experience of .NET (ASP.NET/ASP.NET MVC)

<u>Test automation engineering</u>
Creation of test designs, test processes, test cases and test data
Apply business and functional knowledge including testing standards, guidelines, and testing
methodology to meet the teams overall test objectives
Responsible for designing testing scenarios for usability testing
Prepare all reports related to software testing carried out
Analyze the results and then submit the observations to the development team

Salary: INR 4.5 LPA

Job Location: Pan India

Interview Process:
Assessment
Technical Round
Managerial Round
