Sub. Energy Literacy Training (ELT) Certificate- A step towards Climate Correction

The world today is facing the huge challenge of Climate Emergency, and one of the biggest contributors to this is enormous use of energy in modern way of life, relying mainly on fossil fuels that give carbon emissions on burning and lead to climate change. We as individuals can become the Action takers to mitigate Climate Change, and the first step is to become Energy Literates.

Register for the **Energy Literacy Training** offered by the **Energy Swaraj Foundation**, endorsed by **AICTE**, which is **Free of cost**, and consists of 12 short modules. On successful completion of the training, you will get a Certificate of Energy Literacy Training (ELT) with logo of AICTE. GGS Indraprastha University has registered for it and has become a part of the Climate Action mission. You can now join with the following unique link :

https://es-pal.org/lets_begin/hZNLTVCXyh4q5az

First get **registered** as individual and then **enrol** for the course. Then you will be able to take up the training course.

Join in the mission and as responsible citizens of India, contribute towards climate correction initiatives for protection of the Earth and to keep it safe for our future generations.

All Faculty, Staff, PhD scholars, and USS students may please register and obtain the **Energy Literacy Training (ELT) Certificate**.
