A brief about the company:

An ISO 9001:2008 Company, is one of today's leading manufacturers of low voltage electrical and electronic controls in India. The Company was established in 1965 as a joint venture between Cutler-Hammer, USA, and Indian partners. Since 1977, it is a wholly owned Indian Company with global business connections.

The Company's main plant is located at Faridabad, near Delhi, on a 15-acre plot with a covered area of over 2,50,000 square feet, employing over 700 personnel with fully modern manufacturing facilities. In continuation of its policy of continued investments in electrical products, BCH has set up another state-of-the-art manufacturing plant spread over 12 acres in Rudrapur, Uttarakhand in 2010.

BCH Electric Limited is committed to achieve a leadership position in the electrical switchgear, control gear and automation industry by creating a technical and marketing advantage to consistently meet and exceed customer expectations.
