The horrific Delhi terror incident of 10.11.2025 has brought out certain security dimensions into sharp focus. These have a direct bearing on public order and need to be addressed on priority. Hon'ble Lt. Governor has directed that Chief Secretary should immediately take action on following issues, which have emerged from the chain of investigation.

A. It has been flagged by security agencies that private health institutions in Delhi and NCR regions are engaging medical professionals without due diligence and background checks. Hon'ble Lt. Governor has directed that Health Department should create a central data repository, containing records of doctors and para-medical staff engaged along with details of their medical degrees. In cases where medical professionals have secured degrees from foreign countries, information should also be shared with the police department for secondary background checks.

B. The incident has also brought to the fore infirmities in the second hand market of motor vehicles, wherein a registered vehicle owner sells his or her vehicle to a third party through intermediary companies/financers etc. In several cases, details of final purchasers are not reflected in the Vahan database. Hon'ble Lt. Governor has desired that Transport Department be directed to hold a consultation exercise with all digital platforms and financers engaged in sale and purchase of vehicles. Clear directions should be given that under no circumstance will vehicles be allowed to ply where actual owner is different from the registered owner. This problem is reportedly most acute in cases of auto rickshaws, where the permit holder is different from actual owner. Government of India has launched the Digital Sky platform for registration of all drones. Home Department and Delhi Police should seek dynamic access to this database, given the heightened risks of usage of drones for non civilian uses. Some states such as Himachal Pradesh and Telangana have brought out Drone policies through their IT departments, which seek to strike a balance between demands of economic development, e-governance and academic research on one hand and the security imperative on the other. These should also be studied and possibility of their replication in Delhi examined.

Hon'ble Lt. Governor has desired action taken on these matters may be submitted to this office within three weeks.

This issues with the approval of Hon'ble Lt. Governor.
