No. F. NO. 34 (5) (1)/2025/DAA/1342

Dated : 19.12.2025

## **NOTIFICATION**

**Sub: Guidelines for streamlining the implementation of scheme & syllabus of various programmes under NEP-2020**

On the recommendation of the Committee constituted for streamlining the implementation of scheme & syllabus of various programmes under NEP-2020, the Hon'ble Vice-Chancellor has approved the following guidelines:

- (i) **Offering of Majors under NEP:** Keeping in view the complexity and practical challenges associated with implementing the National Education Policy (NEP) such as immediate requirements of human resources and infrastructure, the Committee recommended that at this stage, programmes under NEP may be offered with single major only. The option of offering multiple majors may be explored once resource constraints and related issues are resolved.
- (ii) **Capping for Offering Minor Specialization:** With due deliberation for fixing of capping for offering of minor specialization to the under-graduate students, the Committee recommended that a minor specialization shall be offered only if at least one-third of the enrolled students in the class opt for it. The objective of capping is optimal utilization of available resources and supports the effective implementation of NEP guidelines. For example, if in B.A. (English) programme, 60 students are enrolled, a minor specialization such as "Political Science" will be offered only if a minimum 20 students opt for that minor specialization. A similar mechanism also proposed by the Committee for minor specialization in post-graduate programmes with the capping of one-fourth of the enrolled students in the class opt for any particular minor.
- (iii) **Inter-School Minor Specialization:** With regard to minor specializations to be offered from different USS, the Committee emphasized that the concerned Dean of that School must consult all relevant stakeholders before introducing such minor specializations to avoid future inconvenience.
- (iv) **Capping for Offering Multidisciplinary Courses (MDC):** The Committee recommended that MDC shall be offered only if at least 20 students opt for it. The concerned Dean will determine the MDCs to be offered in each Semester and the class size of each MDC taking into accounts factors such as infrastructure, availability of faculty, etc. This information will then be communicated to the NEP Coordinator, who will compile the list of offered MDCs and circulate it to the students through the Dean of the School seeking their options. After receiving

*(Signature)*

students' preferences, NEP Coordinator will publish the final allocation of students to the MDCs. In case where the number of applicants exceeds the available class size, allocation will be made based on transparent criterion such as 'first come, first served' basis, to ensure that allocation remains within the permitted limits. The Committee emphasized that this entire process must be completed before the commencement of every semester.

- (v) **Implementation of MDCs, AECs, SECs and VACs:** The Committee also discussed and deliberated at length on the issue of implementation of Multidisciplinary courses (MDC), Ability Enhancement Courses (AEC), Skill Enhancement Courses (SEC) and Value Added Courses. It was recommended that each School prepare a list of common courses to be offered upto the fourth semester (second year), and integrate these into the scheme & syllabus, adhering to all codal formalities. While preparing this list, School must consider infrastructure and resource constraints including faculty availability. Additionally, before finalizing MDCs for any programme, coordination must be carried out by the concerned Dean/Director with affiliated institutes/college. MDCs shall be offered only with their acceptance and NEP Coordinator will prepare a booklet containing the finalized list of courses for notification.

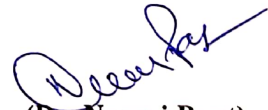

(Prof. C.S. Rai)
