GANDHI FELLOWSHIP PROGRAMME FOR ALL USS STUDENTS

GANDHI FELLOWSHIP PROGRAMME for all students of USS in collaboration with Piramal Foundation for Education Leadership (PEEL).

The Recruitment process for the fellowship is conducted for outgoing students who are ready to step into the professional arena. The fellows in this program are recruited and trained for an essential sector, a sector which among others needs focus and priority not only from the government but also in the form of partnerships and investments from corporates across the globe. This sector is the Development Sector, which needs more inclusive focus at the grassroots, and leadership in the form of Social Entrepreneurs. And this is the aim that The Gandhi Fellowship Program under the aegis of Piramal Foundation and Kaivalya Education Foundation, works towards and in its mission creates India's finest Social Entrepreneurs. The students have to complete a 2-year rigorous curriculum in which they are assigned locations in states where they have MOUs with the Education Ministry for working in government schools, plus an opportunity to lead a community, as their work base.

<u>Grant</u>	<u>Placements</u>
You would receive a Grant of Rs. 14,000/- per month during the entire 2 years. You will also receive substantial support with regard to boarding, lodging, communication, travel etc. so that you can focus on the work involved.	At the end of the programme, the fellow articulate their private dream what they want to accomplish with their lives. We facilitated this journey towards realising their dream through our network of contacts, to find them placements, to raise resources for implementing their solutions relevant to the existing concerns our fellows have gone on to work for organisations such as UNICEF, NACO, GIZ and Piramal Foundation.

For Registration kindly visit the website:- www.gandhifellowship.org
