About Indiastat.com :

Indiastat.com is is perhaps the most comprehensive e-resource providing secondary level, socio-economic statistical information about India, its 31 states, 19 sectors and 6 geographical regions. Launched in the year 2000, Indiastat.com has now become a trusted source of getting secondary level socio-economic statistical information about India. The available information is collected from authentic sources which is diligently screened and segregated into various categories before uploading on the web-portal. Indiastat.com provides information for the following 31 broad data categories. Each of these broad data-categories are further divided into their sub-categories. Over Indiastat.com, the statistical information about India, its regions and states have been qualitatively analyzed, condensed and presented in a user-friendly format. This exhaustive and methodically compiled data can easily be accessed within three or four clicks. The data can also be downloaded in MS-Excel/Word/HTML formats. If required, print of the data can also be taken out. The available information can easily be searched/located through a dedicated search-bar wherein refine search can easily be made by applying filters to search data for a particular Year, Section, State or Region.

Agenda of the Training Program :

1. Introduction to Indiastat.com
   - Brief introduction about Indiastat
