## **Job Title: Junior Software Engineer (Fresher)**

**Location:** Noida

**Company Overview:** Binmile Technologies is a leading software services company dedicated to delivering cutting-edge solutions to our clients. We are committed to fostering innovation, providing a dynamic work environment, and nurturing the growth of our employees. As we continue to expand, we are seeking highly motivated and talented fresh graduates from reputable colleges to join our team as Junior Software Engineers.

**Position Overview:** We are looking for entry-level Software Engineers with a strong educational background in computer science and a genuine interest in programming. As a Junior Software Engineer, you will have the opportunity to work on diverse projects, collaborate with experienced professionals, and contribute to the development of innovative software solutions.

### **Key Responsibilities:**

1. **Coding and Development:** Collaborate with the development team to design, code, and test software solutions.
2. **Problem Solving:** Analyze and troubleshoot software issues, identifying and implementing effective solutions.
3. **Learning and Development:** Stay updated on emerging technologies and industry trends to enhance technical skills and contribute to continuous improvement.
4. **Team Collaboration:** Work closely with cross-functional teams to ensure seamless integration of software components.
5. **Documentation:** Prepare comprehensive documentation for code, designs, and technical specifications.

### **Qualifications:**

1. Bachelor's degree in Computer Science or a related field from a reputable college.
2. Strong understanding of programming languages such as Java, Python, C++, Node or similar.
3. Solid grasp of fundamental computer science concepts and data structures.
4. Eagerness to learn and adapt to new technologies and programming languages.
5. Excellent problem-solving skills and attention to detail.
6. Effective communication and collaboration skills.

### **Preferred Skills:**

1. Familiarity with web development technologies (HTML, CSS, JavaScript).
2. Experience with version control systems (Git).
3. Experience working on personal or academic software projects.

### **Benefits:**

- Competitive salary
- Health and wellness programs
- Professional development opportunities
- Collaborative and innovative work environment
